

New Product

All day web reporting system

NO Software, NO Back Office

ExNow is a new cash register reporting tool. It allows the linking together of multiple cash registers in multiple locations. All transactions and sophisticated reports are displayed for you to view on a private website accessible 24 hours a day. All information is updated in near real time.

NO Software to install

NO Back Office computer required at branch

- Very low capital outlay.
- Web Based. No Branch or Head Office hardware to be maintained.
- Simple to understand. Easy to teach. Easy to learn.
- Plug and Go
- Simple export and print reporting
- Automatic branch re-order level report
- Comprehensive Reporting Engine. Export data (option)

ExNow will report on many cash registers at many branches.

ExNow is a low cost web based service. It will report what is going on at all your cash registers at all branches automatically ... As it happens.
